

EduGenie: Google Gemini Powered Learning Assistant

Project Concept

EduGenie is an AI-powered learning assistant that uses Google Gemini to provide personalized explanations, answer students' questions, summarize study materials, generate quizzes, and assist with learning based on the student's needs.

Possible Core Features

- **Ask EduGenie** – Students can ask questions in natural language.
- **Concept Explanation** – Explains difficult topics in simple language.
- **AI Quiz Generator** – Generates MCQs and other questions from a given topic or uploaded material.
- **Notes Summarizer** – Converts lengthy study material into concise notes.
- **Step-by-Step Solutions** – Helps students understand how to solve problems rather than only providing answers.
- **Personalized Learning** – Adjusts explanations according to the student's learning level.
- **Interactive Chatbot** – Allows follow-up questions and continuous conversation.
- **Progress Tracking** – Tracks quiz performance and learning progress.

Possible Technology Stack

- **Frontend:** HTML, CSS, JavaScript / React
- **Backend:** Python Flask / FastAPI or Node.js
- **AI:** Google Gemini API
- **Database:** Firebase / MySQL / MongoDB
- **Authentication:** Firebase Authentication
